

## Master's Students

Usually, health sciences master's students take only one qualitative research methodology course, but for those searching for a solid preparation that may lead into a PhD program or those with extensive experience in qualitative health research, two courses on the theoretical foundations of method are also available.

### Introduction to Qualitative Health Research

**CHL5221**

Community Health Appraisal Methods:  
Introduction to Qualitative Research

**EXS5510**

Qualitative Inquiry and Physical Cultural Studies

**NUR1028**

Introduction to Qualitative Research: Methodologies,  
Appraisal and Knowledge Translation

### Theoretical Foundations of Method

**JRP1000**

Theory and Method for Qualitative  
Researchers: An Introduction

**NUR1024**

Foundations of Qualitative Inquiry
